PROJECTS

Codeit (Online code compiler and editor)

- Repo Link:** <https://github.com/Suraj028201/codedit-master>
- Tech Stack:** ReactJS, TailwindCSS, REST-api(shazam-api), Redux/toolkit.
- Developed an online code editor and compiler using reactJS, Context API, styled component, RESTful api, judge0 CE, React routerDOM, and codeMirror. This allowed users to store there codes in separate folders for later use.

Personal Website

- Tech Stack:** HTML, CSS, JavaScript, DOM manipulation.
- Check out the website:** <https://suraj-portfolio-028201.netlify.app/>

Todo App

- Link:** <https://poetic-tapioca-dd25ea.netlify.app/Login>
- Tech Stack:** ReactJS, TypeScript, Context API, CSS, HTML
- Created todo app, where users are registered in context-api, with route guard functionality so that no one else can access the dashboard. On the dashboard user can see his profile details as well as add todo, with a functionality of adding subtodos as well.
- Demo user:** email: john.doe@example.com, password: abcde
